

Thank you for being here!

We hope this calendar helps you to plan your own cut flower garden. We've dialed in our planting practices and created this calendar on what works best in our region.

We are located in Zone 5b so please keep that in mind when planning your garden. If you have questions or would like to have us help make your plan, please reach

Seed (s)

(1), (2), (3), etc. is our succession planting number. We space all flower plantings out to keep blooms continuous through our season.

Transplant (T)

You may see multiple dates for starting sunflowers. We like to start our sunflowers indoors to give them a jump start. Our Nebraska weather can wreak havoc on our tiny seedlings so we give them the best chance possible.

Direct Seed (D)

We'll continue to seed sunflowers and zinnias until the end of July to allow for fall blooms. These will all be direct seeded.
